

**AT BALLINA.**

In his yesterday's budget our Ballina correspondent wrote:—Although there has been no sign of Spanish influenza locally stringent precautions are being taken by the members of the committee who have the matter in hand. Yesterday, afternoon a good supply of vaccine was received from Sydney by the civic authorities here, but it is reported that no inoculations will be made until tomorrow, when both Drs. Gearin and Yeates will be in attendance to administer the fluid to the residents. The location of the depots has been fixed by the medicos named.
